

Technology Roadmap & Build-vs-Buy

A Top7 CTO/CIO Service • **PROJECT**

A 12–36 month roadmap defining what to build, buy, or retire, so technology investment follows strategy instead of the other way around. You avoid the expensive, hard-to-reverse decisions that come from moving fast without a plan.

HOW IT WORKS

1. Assess current architecture & needs
2. Evaluate build-vs-buy options
3. Sequence the roadmap by priority
4. Align roadmap to business goals

VALUE TO YOU

- Fewer expensive, hard-to-reverse decisions
 - A roadmap the whole team can rally around
 - Investment tied to business outcomes
