

Board-Level Cyber Risk Reporting

A Top7 CISO Service • **FRACTIONAL**

Security risk translated into the language your board can actually act on, tied to business impact rather than technical jargon. You build board confidence that risk is understood and managed.

HOW IT WORKS

1. Define board-level metrics
2. Build the reporting cadence
3. Deliver the first briefing
4. Refine with feedback

VALUE TO YOU

- Board confidence, not a black box
- Investment tied to business risk
- A governance paper trail for diligence

Let's talk about your security program. info@top7llc.com | www.top7llc.com
